Convenience Care Membership

Sadiq Al-Nakeeb, MD FCCP

Convenience Care Philosophy

Strains on medical practices have caused a delay in office appointments and follow up visits, requiring the utilization of physician assistants and nurse practitioners. Some patients may wish to be seen promptly and have their care provided solely by a physician.

Due to the significant growth and demand for medical care in Southwest Florida, as well as the challenges with insurance plans and coverage, medical practices and physicians have had to adapt to fit the needs of their patients.

In order to accommodate these requests, Dr. Al-Nakeeb is offering a Convenience Membership Service.

Healthcare that is
convenient to you and
your pulmonary and
sleep medicine needs.
