

My concierge service is redefining convenience and care by offering a comprehensive range of services tailored to meet your needs.

From expert internal medicine to subspecialties in pulmonary, critical care, and sleep medicine, I'm here to support your health journey every step of the way.

Edward L. Salerno, M.D.

## Concierge Medical Care

For patients who find it challenging to leave their homes, I proudly offer house calls—because everyone deserves access to exceptional care. My cutting-edge diagnostic services include home sleep testing, pulmonary function testing, cardiopulmonary exercise testing, exhaled nitric oxide testing, spirometry, and oximetry testing. These advanced tools allow me to evaluate your health with precision and develop personalized treatment plans.

Whether you're managing a chronic condition or seeking answers about your sleep or lung health, I'm committed to providing compassionate, convenient, and state-of-the-art care. Let me bring health and healing closer to home, literally!
